

Entrepreneurship Skills

1. Define entrepreneurship and intrapreneurship and differentiate between the two concepts through critical analysis.
2. Apply entrepreneurial skills such as opportunity identification, resource mobilization, risk management, and strategic decision-making to real-world business scenarios.
3. Evaluate the importance of business management skills in effectively running and growing a business.
4. Demonstrate effective teamwork and collaboration skills in a business setting to achieve common goals.
5. Utilize technical skills and knowledge to innovate and create value in a competitive market.
6. Develop and implement time management strategies to optimize productivity and efficiency in a business environment.
7. Analyze and implement organizational skills to effectively structure and manage business operations.
8. Design and implement an Entrepreneurship Development Programme to nurture and support aspiring entrepreneurs.
9. Create a comprehensive business plan that encompasses technical, social, and strategic aspects of a business venture.
10. Evaluate the role of micro, small, and medium enterprises in the economic development of a country.
11. Assess the importance of promoting entrepreneurs in India and the role of business incubators in supporting startup ventures.
12. Analyze and apply government schemes for startup funding to support business growth and innovation.
13. Evaluate the challenges faced by women entrepreneurs and develop strategies to support their success in business.
14. Identify and implement effective ways to overcome challenges in entrepreneurship through critical thinking and problem-solving skills.
